

Materials Matter for **ALL**

Increasing Access for Students with Disabilities

INITIATIVE OVERVIEW

In SY26–27, ESU 4 is advancing its commitment to high-quality literacy instruction while strengthening teaching practices for students with disabilities. With Nebraska’s adoption of a universal literacy screener and a continued focus on improving outcomes for all students, ESU 4 is pursuing a cohesive, district-aligned training approach to delivering standards-aligned, high-quality instructional materials (HQIM) across tiered instruction for students with disabilities. In partnership with SPED Strategies, a select group of districts will participate in a free professional learning series, focused on **effectively implementing Amplify’s CKLA to expand access to HQIM and improve outcomes for students with disabilities**.

ENSURING COHERENCE

The Materials Matter for All (MM4A) pilot is designed to align with districts’ current NeMTSS efforts and existing initiatives across the state, namely, [Materials Matter](#), [Nebraska Literacy Project](#), and the [Journey to Inclusion](#). The MM4A training series will support general and special educators in delivering accessible, Tier 1 Core instruction to all.

OUTCOMES

Districts can expect:

- ☒ **Stronger Tier 1 Core instruction** using HQIM in general education classrooms
- ☒ **More fluent use of HQIM** with students with disabilities
- ☒ **More effective collaboration** between general and special educators

ELIGIBILITY

Eligible districts must:

- ☒ Be using **Amplify CKLA (Grades K-2)** or **CKLA (Grades 3-5)**
- ☒ Have **readiness indicators** based on successful curriculum adoption
- ☒ Commit to **completing surveys** that help gauge the impact of the pilot

LOCATION & DATES

The sessions take place on the following dates at the ESU 4 conference center.

CKLA K-2	2/08, 3/08, 3/31
CKLA 3-5	2/09, 3/09, 4/01
